

**“The Gas Pedal”** is an all mountain, all conditions ski. A true "1 Ski Quiver". The Gas Pedal excels in everything from bottom less powder to rock hard bullet proof ice. With years of experience and balanced approach to designing early rise tips and tails (10cm of early rise in the 187cm), in combination with a GS race side-cut, make this ski the only one you really need. We offer this model in a 167/177/187/197 with your choice of graphics.

## STATS:

---

### The 197 Gas Pedal

---

21 meter radius turn  
Tip=154mm

## *DON'T BELIEVE THE HYPE.*

*DID YOU EVER BUY SKIS THAT HAD BLINKING LIGHTS IN THEM? OR SKIS WITH MAGNETS BUILT INTO THEM SO THEY WOULD CANCEL OUT THE VIBRATION WAVES IN THE SKI? OR SOME OTHER LAME GIMMICK, LIKE STRIPS OF USELESS PLASTIC GLUED TO THE TOP OF THE SKI FOR REINFORCEMENT? WE NEVER BOUGHT INTO THAT EITHER.*

*BUT SADLY BIG CORPORATE SKI COMPANIES HAVE BEEN THE ONLY CHOICE FOR DECADES. YOU DESERVE TO KNOW THE TRUTH. YOU DESERVE TO HAVE A SKI DESIGN THAT IS WHAT YOU NEED, RIGHT NOW. YOU DON'T DESERVE: TO HAVE A GREAT SKI CONCEPT PURCHASED AND SHELVED, JUST SO A BIG CORPORATE SKI COMPANY CAN BLEED YOUR WALLET DRY, WITH MICROSCOPIC CHANGES IN THEIR DESIGN EACH YEAR. VIICE SKIS IS DONE PUTTING UP WITH ALL THE "HYPE" THAT CORPORATE SKI COMPANIES CREATE JUST SO THEY CAN GET YOU TO BUY SOMETHING THAT DOESN'T MAKE ANY DIFFERENCE.*

*AT VIICE WE CREATE SKIS,  
NOT HYPE.*
